## Financial review

### Financial position

As at 31 March 2016, the consolidated assets of Bigbank AS Group totalled 356.9 million euros, having increased by 4.0 million euros (+1.1%) during the quarter.

As at 31 March 2016, loans to customers accounted for 84.2% of total assets, the proportion of liquid assets (amounts due from banks and financial assets held for trading) was 13.2%.

At the end of the first quarter, liquid assets totalled 47.2 million euros.

Part of bank's liquidity buffer was placed in a trading portfolio of debt securities, which are highly liquid, hold investment grade credit ratings, and can be sold at any moment. Financial assets held for trading totalled 14.7 million euros as at 31 March 2016.

At the end of the first quarter, the Group had 161 thousand loan agreements, 70 thousand of them in Latvia, 37 thousand in Estonia, 28 thousand in Lithuania, 11 thousand in Finland, 9 thousand in Spain and 6 thousand in Sweden.

Geographical distribution of loans to customers:

- 24.3% Latvia,
- 21.7% Lithuania,
- 17.7% Finland,
- 16.6% Estonia,
- 11.1% Sweden,
- 8.6% Spain.

At 31 March 2016, loans to customers totalled 300.5 million euros, comprising of:

- the loan portfolio of 330.2 million euros, loans to individuals accounting for 92.6% of the total;
- interest receivable on loans of 22.1 million euros;
- impairment allowances for loans and interest receivables of 51.8 million euros (consisting of an impairment allowance for loans of 33.8 million euros, an impairment allowance for interest receivables of 9.7 million euros and a statistical impairment allowance of 8.3 million euros).

Bigbank's loan portfolio is diversified – at the reporting date the average loan was 2,056 euros and as at 31 March 2016, 40 largest loans accounted for 6.4% of the loan portfolio.

Bigbank AS focuses on the provision of consumer loans. In line with the corporate strategy, as at 31 March 2016 loans against income accounted for 87.1%, loans against surety for 2.9%, loans secured with real estate for 9.9%

and loans granted against other types of collateral for 0.1% of the total loan portfolio.

As regards past due receivables, it is important to note that the collection of non-performing consumer loans differs significantly from the recovery of loans that have physical collateral (for example, mortgage-backed loans). Due to their nature (as a rule, consumer loans are backed with the customer's regular income), claims related to terminated consumer loans are satisfied in smaller instalments over an extended period rather than in a lump sum raised through the sale of the collateral.

Past due loans comprise loan principal that has fallen due. Under the terms and conditions of its loan agreements, the Group may terminate an agreement unilaterally if at least three scheduled payments are in arrears. When an agreement is terminated, the customer has to settle any outstanding loan principal, any accrued interest, and any collateral claims resulting from the settlement delay.

Loans past due for more than 90 days consist of past due principal payments plus the total amount of loan principal that has fallen due in connection with termination of agreements.

To mitigate the risks arising from customers' payment behaviour and to cover potential credit losses, the Group makes impairment allowances, which are created on a conservative basis. At 31 March 2016, impairment allowances totalled 52.4 million euros, consisting of:

- impairment allowances for loan receivables of 33.8 million euros,
- impairment allowances for interest receivables of 9.7 million euros,
- statistical impairment allowances of 8.3 million euros,
- impairment allowances for other receivables of 0.6 million euros.

Where debt recovery proceedings do not yield expected results, the underlying receivable is written off the statement of financial position.

At the end of the first quarter of 2016, the Group's liabilities totalled 263.9 million euros. Most of the debt raised by the Group, i.e. 258.9 million euros (98.1%) consisted of term deposits (including subordinated deposits in the amount of 1.8 million euros).

In the first quarter of 2016, the Group's equity was 93.0 million euros. The equity to assets ratio amounted to 26.1%.

## Financial performance

Interest income for the first quarter reached 17.3 million euros, increasing by 1.4 million euros (8.9%) year over year. The increase in interest income results from growth in the loan portfolio.

The period's ratio of interest income (annualised) to average interest-earning assets was 18.7% and (annualised) return on the loan portfolio accounted for 20.9% of the average loan portfolio.

Interest expense for the first quarter of 2016 was 1.6 million euros, decreasing by 0.2 million euros year over year (11.0%).

The ratio of interest expense to interest income was 9.0%. The ratio of interest expense to average interest-bearing liabilities (annualised) was 2.5%.

Other operating expenses for the first quarter totalled 2.7 million euros (a decrease of 0.2 million euros year over year).

Salaries and associated charges for the first quarter of 2016 amounted to 3.4 million euros, including remuneration of 2.2 million euros. As at the end of the period, the Group had 407 employees.

In the first quarter, impairment losses were 6.7 million euros, consisting of:

- impairment losses on loan receivables of 5.4 million euros,
- impairment income on interest receivables of 1.3 million euros.

Impairment allowances are made on a conservative basis.

Other income for the first quarter of 2016 was 0.9 million euros, the largest proportion of which resulted from debt collection income. In the same period of 2015, other income was 1.3 million euros.

Other expenses for the first quarter reached 0.8 million euros, decreasing by 0.1 million euros year over year.

The Group's net profit for the first quarter of 2016 amounted to 3.2 million euros. In comparison to the first quarter of 2015, net profit has decreased by 1.9 million euros (145.2%).

First-quarter profit before impairment allowances was 10.0 million euros, the corresponding figure for the first quarter of 2015 was 8.6 million euros (an increase of 16.3%).
